Christian Methods Preserve Peace

By C. Leon de Aryan

This is not the first time that I disagree with the majority and the results will prove again that the Ideal is more powerful than brute force.

As the best method of preparedness I suggest that we take that two Billion Stabilization Fund which the Treasury stole from the people of the U.S.A. when it confiscated the gold and abritrarily raised the price of gold. This stabilization fund was turned over to the U.S. Treasurer as a "blank check" to gamble with it and "stabilize" currencies. He has done it to the advantage of the House of Rothschild who control world banking and control our own monetary system **against the taxpayers** of this country.

I propose that these two billions be appropriated by congress this winter to feed the hungry peoples and victims of the present war in Europe, China and the world regardless of race, creed or color.

A well known editor in chief said that he could not understand what I meant. A prominent busiman replied that the U.S.A. has no business feeding foreigners. Evidently neither of them have studied the teachings of Christ, yet they claim to be Christians.

I maintain that it would be better for the U.S. to use the stabilization fund in a purely humanitarian enterprise than in continuing to fasten the grip of Rothschild & Co. upon the peoples of the world and perpetuate war.

The world battle today is not one between Germany and the rest of the Allied world, but between the Jewish financial dictatorship and the new monetary revolution brought about in Germany and now spreading to the rest of the world. I maintain that the best safeguard for America is in **not supporting the Jewish battle for world supremacy** and therefore the stabilization fund should be used to heal the wounds this country has inflicted when the NEW DEAL encouraged the English King and Queen to push Poland into the war with all the resultant massacres and needless slaughter of belligerents and neutrals.

The least we can do now to atone for this bloody crime of our New Deal administration upon whose hands the blood of these victims is smeared, is to use this stolen two billions to feed the starving and the refugees all over the world this winter. It will do more good to allay, at least for a while, the resentment and the hatred we caused in their hearts because our government encouraged England, France and Poland to go to war in hopes that we would help them defeat the Nazis.

I believe that in doing good we make friends. That our friends will not be enthused to make war on us. That dictatorships have power only as there exists a just and a deep grievance which the dictators promise to remedy. Following Christ is the best method of winning men's hearts in friendship.

We must expose criminal intentions and criminal conspiracies. We must warn against moves that are to deprive humanity of life, property and liberty. But we also must be noble when humans are knocked down and suffer. We can make friends with them by succoring them.

It is cheaper to feed your enemy and win him over than to feed his hatred and have to fight him. No need making unnecessary enemies.

WESTERN UNION

"New Deal party is the party of broken covenants. In contrast, the Republican Party keeps its covenants. Everything has been tried in the line of preparedness against war except keeping our covenants with God and the Christian religion in practical application. It might seem strange to follow the American motto: "In God We Trust," and mean it, too.

"Wherefore, the Republican Party resolves to give God and Christianity an honest trial by obeying the advice given in Matthew, chapter 5, verses 38 and 43, 44, 45;

Sons of God

(Ye have heard that it was said, An eye for an eye, and a tooth for a tooth . . . Ye have heard that it was said, Thou shalt love thy neighbor, and **hate thine enemy;** but I say unto you, Love your enemies, and pray for them that persecute you; that ye may be **SONS of your Father** who is in heaven . . .)

"BE IT RESOLVED: that the Republican party is going to use the Two Billion Stabilization Fund of the U. S. Treasury to stabilize peace on earth by buying up all available surplus food stuffs anywhere in the U.S. and foreign countries to feed the populations of Europe and prove our first reliance upon the Word of God in the promotion of Peace and Good Will on Earth.

"That a copy of this resolution be sent to the Heads of the Governments of the belligerents as America's Declaration of Peace for the Stabilization of Friendship.

"Gentlemen, I am sure God and Jesus Christ deserve at least to be trusted Two Billion Dollars' worth after the taxpayers of the U.S.A. have trusted President Roosevelt with 30 billions and got nothing but permanent unemployment and participation in Europe's war which this nation is financing through the gold and silver purchases."

C. Leon de Aryan, Editor The Broom, East San Diego, Calif.

Hoover Repeats Sentiment

In his address to the G.O.P. delegates at Philadelphia former President Herbert Hoover, who knows what devastations war produces, echoed my sentiments as follows:

"And there is an infinite service that America can bring to the world. After this struggle we shall see hate sitting at the peace table. We might with our moral force and counsel abate its dread consequences. **I know the famine, disease and suffering that is yet to come with this war. With our economic strength and our compassion we can save millions of lives,** give aid to reconstruction and inspire tolerance and hope again to the world."

Price-Fix Monopoly In Milk Resisted By Women of The Pacific

LOS ANGELES.—Another attempt at state governmental price-fixing on milk in the Los Angeles area is being resisted by approximately 110,000 local consumers through their organization, Women of the Pacific.

State Department of Agriculture began a series of three public hearings, Thursday, in Los Angeles, on the so-called Milk Stabilization & Marketing plan by which it is proposed to force on consumers heavy increases in prices.

The "plan" not only affects every household in Southern California, but every dairyman who produces milk for the market and all dealers, grocers, restaurants, hotels, clubs, and other quantity purchasers.

Beneath the surface, consumer spokesmen fear, is the hidden hand of the same monopolistic group of larger distributors who entered into secret closed shop agreements with Dave Beck's Teamsters' Union while representing to the public that they were still open shop, as revealed at the Los Angeles hearings in January of U. S. Senate Civil Liberties (La Follette) Committee.

Attempted setting up of this revolutionary state-controlled milk price plan is made possible by Department of Agriculture's interpretation of Young-Desmond Milk Control Act, originally

Jewish-F. B. I. Plot to Smear Christian Front & Fr. Coughlin

WENDELL L. WILLKIE

On Thursday night, April 18, speaking over KGB, I said:

"Now that a group of misguided Republicans are ballyhooing Thomas Dewey of New York for President, I wish to direct your attention to Wendell L. Willkie, President of Commonwealth & Southern Corporation, as the best man the G. O. P. can draft to restore American ways and American prosperity to our depressed country".

Evidently International Jewry thought the same way, for it dropped Thomas Dewey who had been their candiate. He had obeyed their orders and imprisoned Fritz Kuhn on a charge that did not concern the State of New York, but was a private affair of the Bund.

Dewey had come to an understanding with the Jewish money bags for support. He was to carry out faithfully their policies of persecuting all who like Hitler, had thrown off the yoke of gold. Thus he was to be their stooge to protect the British standard bearers of the Rothschild clan. But Dewey was following the election tactics of FDR who promised everything to everybody, just to get himself in power. When Dewey saw that the Wisconsin Germans, the Chicago and Omaha Irish did not want to fight for Britain and the Jews, **he came out against our participation in the war,** while speaking in those localities. This woke up his Jewish supporters to the fact that the young racket buster was a political racketeer in his own right, and could not be trusted to obey their orders.

International Jewry sounded out Willkie, found him an ideal candidate after their own heart and set to work to get him drafted. Their Jewish organizations, B'nai B'rith and others, succeeded to get unwary suckers to write letters and send wires to local delegates directly instructing them to draft Willkie. This will explain to you how they suddenly were able to hand out passes to the Willkie crowd to pack the galleries in Philadelphia and holler for Willkie, the way they packed the plaza in front of Pilate's palace and hollered for the Crucifixion. And indeed, Willkie and the American people are going to be crucified.

Willkie is a natural American stooge for Jewry. He is sincere in his convictions that we must uphold the Jewish financial dictatorship not only in America but the world over.

Were it not for this Jewish war angle, Willkie would be the ideal choice to restore American ways and undo the damage of the New Deal. He will do it yet, but at the same time work overtime to strenghten the Jewish plan of financial domininion and carry it out faithfully as an "American" policy. This is going to bring the war right **into the U. S. A.** so that it will not be necessary to wage any other but a defensive war. Indeed, the Jewish policies which Willkie will carry out by making common front with Britain to protect the International Jews against the true national interest of the American people, will bring the war into our homes.

Unless the common people wake up and realize what the foreign as well as the financial methods of international policy **really is,** this country will be invaded in 1944 by an armed expeditionary force of Russia, Germany, Japan and Mexico.

Willkie will build up the defenses and produce the necessary "patriotic" spirit for American defense. The invaders will be repulsed after bloody sacrifices, but the loss of American manpower will be so great that it will wake up the American people to the fact that the sacrifice was unnecessary had they freed themselves in the first place from Jewish domination. They will do so, **after the war.**

Will Martin Dies Investigate Jews ?

HOW JEWS PRODUCE ANTI-SEMITISM

By C. Leon de Aryan

Harold Nathan, the Jewish head of the G-Men, should be proud of his deeds, his plot to inveigle 18 young men, 17 of whom are absolutely innocent of any wrong doing whatsoever, has miscarried and the jury exonerated 9 defendants completely of all charges of conspiracy to overthrow the U. S. government and of stealing government property, while the jury disagreed on the remaining 5. The jury deliberated almost a whole week to come to this verdict. How lucky are these men that we still have trial by jury of their own peers and not trial by Jews.

If you have forgotten how the Jewish New York TIMES suddenly descended upon the gullible American suckers with **screaming front** page pictures and the announcement that the American version of the OGPU, the "patriotic" F. B. I., had unearthed a plot to overthrow the government of the U. S. A.; if you have forgotten the commotion it created, the editorials that were let loose even in our San Diego daily papers by our weakminded "American" editorial writers, the contents of which described the "conspirators" as evil beings below the level of human consideration, since the scoundrels had conspired to overthrow our sanctimonious New Deal government with force and violence.

If you have forgotten all that nonsense and hysteria, you had better recall it to your mind. Do you remember how the 18 were held by a Jewish judge in almost half a million bail and how they were "too dangerous" to be let go. Do you not remember the pictures of the huge cache of arms that were found in the "arsenal" which the TIMES had faked and which was exposed by U. S. army officers and the national guard?

But you did not know all these details because all you read, perhaps, was our two stupid daily editions of Jewish propaganda in San Diego, that had not a single thread of truth in them. But had you been reading the **Brooklyn Tablet** and **Social Justice** you would have gotten the lowdown on this Jewish F. B. I. plot to destroy Fr. Coughlin and cast an opprobrium upon the word "Christian" as well as Christian Front, to break this movement which was making inroads against the Jewish Front, especially in N. Y. City, when hundreds of policemen joined the organization and the Jews got scared that they would not control the Irish police force in case of turmoil and upheavals, engineered by the Jews to stampede this country into war.

And they succeeded with the help of $500,000 to silence Fr. Coughlin for the time being. The Jews bribed the Pope by a donation of $125,000 to his "peace" efforts and another equal amount to the newly formed Jew-controlled federation of Jewish-Catholic-Protestant Churches. This latter outfit has been organized to get Christ out of Christianity and leave the inanity in the modern churches who will then not expose the Jewish world conspiracy to massacre the Gentiles in 1944 in America in a war

(Continued on Page Two)

You may read all of this in George Washington's prophetic visions which forecast the Civil War as well as the present statuts of his beloved America.

The Democratic candidate would carry out the Jewish plan as well. Otherwise he would not be elected.

It appears that Willkie will be the next president, since he will prepare America much more thoroughly for war to protect the House of Rothschild which might have to move to Canada. As long as International Jewry can get better protection from Willkie than they could from FDR they will certainly take the better chance.

Washington's Farewell Address

(Continued from last week)

" . . . But a solicitude for your welfare which cannot end but with my life, and the apprehension of danger, natural to that solicitude, urge me on an occasion like the present, to offer to your solemn contemplation and to recommend to your frequent review, some sentiments which are the results of much reflection, of no inconsiderable observation and experience, and which appear to me all important to the permanency of your felicity as a people.—These will be offered to you with the more freedom as you can only see in them the disinterested warnings of a departing friend, who can possibly have no personal motive to bias his counsels.—Nor can I forget, as an encouragment to it, your indulgent reception of my sentiments on a former and not dissimilar occasion.

Interwoven as is the love of liberty with every ligament of your hearts, no recommendation of mine is necessary to fortify or confirm the attachment. —

The Unity of Government which constitutes you one people, is also now dear to you.—It is justly so; — for it is a main Pillar in the Edifice of your real independence; the support of your tranquility at home; your peace abroad; of your safety; in every relation of your prosperity; of that very Liberty which you so highly prize. — But as it is easy to foresee, that from different causes, and from different quarters, much pains will be taken, many artifices employed, to weaken in your minds the conviction of this truth:— as this is the point in your political fortress against which the batteries of internal and external enemies will be most constantly and actively (though often covertly and insidiously) directed, it is of infinite moment, that you should properly estimate the immense value of your national Union to your collective and individual happiness; — that you should cherish toward it a cordial, habitual, and immovable attachment, accustoming yourselves to think and speak of it as of the Palladium of your political safety and prosperity; watching for its preservation with jealous anxiety; discountenancing whatever may suggest even a suspicion that it can in any event be abandoned, and indignantly frowning upon the first dawning of every attempt to alienate any portion of our Country from the rest, or to enfeeble the sacred ties which now link together the various parts. —

For this you have every inducement of sympathy and interest. — Citizens by birth or choice of a common country, that country has a right to concentrate your affections. — The name of AMERICAN, which belongs to you, in your national capacity, must always exalt the just pride of Patriotism, more than any appellation to be derived from local discriminations. — With slight shades of difference, you have the same Religion, Manners, Habits and political Principles. **(In those days practically no Jews were in America. Washington therefore points to sameness in religion, etc.—Ed.)** — You have in a common cause fought and triumphed together. — The Independence and Liberty you possess are the work of joint councils and joint efforts — of common dangers, sufferings and successes.

But these considerations, however powerfully they address themselves to your sensibility, are greatly outweighted by those which apply more immediately to your Interest. — Here every portion of our country finds the most commanding motives for carefully guarding and preserving the Union as a whole.

GOODBYE AMERICA !

(From The S. D. Union)

THE LEE BILL

If there is any doubt in the minds of the American people as to the extent which the Administration is prepared to go in curtailing democracy, now is a good time to read the so-called emergency bill introduced by Sentaor Josh Lee of Oklahoma.

This bill gives the President the power when, in his opinion, war is imminent, to declare an emergency and impose a type of dictatorship that even Europe has not dreamed of. The bill has been favorably reported by the Senate committee on military affairs. It is but one of the totalitarian measures now before Congress.

The Lee bill would make it mandatory that every person immediately declare and register his financial resources, including goods, money, salary and life insurance policies. There would be no exceptions.

Once registered, the individual then would be required to invest his resources in 50-year government bonds, upon which he would receive 1 percent interest. It would make no difference whether the individual possessed the necessary cash to make the investment he would have to borrow it if he didn't have it. The government would lend it to him and he would have to pay 6 percent interest. These notes would have to be secured by adequate collateral. Failure to make this investment would result in a fine up to $100,000 or imprisonment up to five years. Failure to register all wealth and possessions would result in a fine up to $10,000 or imprisonment up to two years.

That is merely one feature of the Lee bill. Other measures which the administration is backing would empower the President, immediately upon his declaration of an emergency—no war declaration would be necessary, merely the President's idea of an emergency—to fix the price of commodities, rents, the amount of electricity one could use and so on, down to the smallest detail. And this period of emergency would not necessarily end with the end of war, should war ever come. It would end when the President decided it should end.

The destruction of democracy is no way to defend this country. It merely amounts to an admission that we have not the intelligence to preserve that for which we profess to be arming and for which we declare ourselves to be ready to fight.

Under the proposed batch of collectivist bills that have captured the fancy of the administration, the last trace of democracy would disappear and instead of having the combined resources of the nation's practical minds, our entire government and economic structure would be in the hands of one man—the political head of the administration.

National defense does not require the destruction of the very thing which we proclaim to the world that we are arming to protect.

SOMEHOW I KNOW YOU CARE
By Verne DeWitt Rowell

If I should die, I know that you would weep
And great, hot tears would trickle down your cheek;
They say you do not care, and yet I know
You think of me before you fall asleep.

The years that parted us had griefs and pains
We bore not wisely nor with grandeur meek;
You were to me a flower so sweet and rare,
Could I be naught to you but traveling fare?

O hearts that have not felt the depth of woe,
May laugh at those who fight the stars in vain;
And ranters tell how smooth Love's path should wind,
But tribal laws insult the cosmic mind:

'Gainst all that weakens bonds of Love I cry;
Church, state and every hateful thing defy.

QUALIFYING FOR POLITICS

This doctrine alone stands unshaken, that doing wrong is to be more carefully avoided than suffering it; that before all things a man should study not to seem but to be good in his private and public life. . . .

Insult and infamy will do you no harm if you be really an honest and true man, practicing virtue. And hereafter when we have so practised it together, then and not till then will we set about politics.—SOCRATES (From Plato's Dialogue, "Gorgias").

Jewish - F. B. I. Plot

(Continued from page One)

that will have no equal in the annals of the world. But that is what it all is working up to and don't say we did not tell you and did not give the correct date!

How the Numbers Dwindled !

First they had caught 18 revolutionists. Then they let go one. That left 17. Later on one committed suicide, a young German boy who saw the propaganda net tighten up on him and despaired of justice in the courts. Then they let go two more because of lack of evidence. But all this time the men were under extraordinary high bail because they were "dangerous". Just think of the heart-aches of their families, the lost time from their jobs and the nervous strain. And what is the outcome?

One fellow, William Gerald Bishop, an unprincipled racketeer, was making a living by exploiting people who saw the communistic menace engulf our government and our nation and were willing to get ready to fight to free this country from atheistic-bolshevik infiltration. Had the F. B. I. grabbed Bishop on the charge of racketeering, they would have done a good job. But, instead, the F. B. I. conspired with the N. Y. Jewish outfit who want to make the war world wide, to entice the "conspirators" to do something for which they could be arrested. Their stool pigeon, one Healy, wined and dined the "conspirators", attempted to start riots against Jews, enticed them to sabotage and destruction, but the young men **refused** to fall for it. All he succeeded in was to get Bishop to steal a small amount of ammunition from a national guard depot. This Healy and the F. B. I., who paid him a royal salary and outfitted him with an unlimited amount of money to produce some "evidence", they are the conspirators who used tax monies to overthrow the government. They are the conspirators who destroy good government by bribery, chicanery and by getting men drunk to incite them to speak boastingly of their drunken dreams, and then manufacture a "plot" out of it.

But is the F. B. I. going to be called on the carpet by Martin Dies? Of course not. The Jews rule this government as they do the F. B. I. As the Supreme Court was our salvation in the NRA case, so the jury trial in court saved the "bad revolutionists" from becoming victims for life of the Jewish F. B. I. plot to silence Fr. Coughlin forever and smear the term "Christian" as something detestable. The same old motive of hanging Christ for the glory of murderous Jews is just as strongly active in modern times as in His.

Mission Beach Celebrates 4th of July

This Friday and Saturday nights San Diegans will thrill to a new and great band headed by the former star of Glen Gray's Casa Loma Orchestra, Sonny Dunham. Conceded the finest trumpeter in the business Dunham has built himself a fine reputation throughout the country and is due for a sky-rocket career as a band leader. Featured with his sixteen piece Orchestra is the lovely and talented songstress Betty Van, former star of Benny Goodman's Orchestra. The band comes to Mission Beach for a two day engagement direct from Radio City New York.

Henry Ford's Youth Movement

DETROIT, Mich., June 22,—Henry Ford today launched a "National Youth Movement" of his own.

To 25,000 other industrialists and manufacturers in all parts of the United States he mailed a booklet pointing out the opportunity open to every employer of labor to help in solving "our gravest national problem—youth unemployment".

"Of all the opportunities confronting our country today," Mr. Ford said, "one of the most important is the creation of openings for unemployed youth.

"To an extent impossible to exaggerate, the future character of our American government, institutions and ideals—depends on what is done about this opportunity today.

"As I see it, American business and industrial management—have ready at hand the means to approach this opportunity constructively.

"Municipal, State and other governmental agencies cannot attack it effectively. They doubtless have done their best but at most their measures are temporary; they can do nothing of substantial and lasting good. Any project that tends to decrease youth's initiative and stultify self-reliance is unwholesome both for youth and the nation.

"Widespread action by private business and industrial management, each industrial concern starting five boys or twenty or a hundred, according to its ability, in a trade school or on the land, on a basis that permits youth to retain its self-respect, will abolish youth unemployment at once.

"I have a deep faith that, if each business and industry will make it part of its business program to do what it can to create opportunity for youth to get started—the problem will vanish."

The booklet explains Mr. Ford's ideas on how to meet the situation constructively—and the results he has attained at Camp Legion and Camp Willow Run, respectively at Dearborn and Ypsilanti, Michigan. To these youth camps, one in its third, the other in its second year, Mr. Ford gives his personal daily attention.

"I'd rather do this than anything else I know of," Mr. Ford told newspapermen. "These boys need a chance to get started. If we have faith in the American way of life, we will help them get a start, and when they start they will carry on the faith in America.

"If it is impossible for industry to employ all of them at once in regular jobs, there remains something else—it is one of the most constructive things that could possibly be done.

"They can be given a chance in trade schools within the industries themselves, or a chance to work for awhile close to the soil. They can gain in health, self-reliance and self-respect, earn something and learn something at the same time. On the land they can learn what city boys and town boys, especially, need to know: that the ultimate resource of this nation, of any nation, is its land.

"It would be a fine thing if business were to accept this as a social responsibility. Whether it is done by individual business men, by a co-operative business group in town or city or by a community itself, it can be done and it needs to be done."

At both Camp Legion and Camp Willow Run is a group of 65 boys. Before coming to camp, all were unemployed. Most of them are sons of dead or disabled veterans. Each group has a 320-acre tract provided by Mr. Ford to work on. They are taught the fundamentals of agriculture and plant, cultivate and harvest many different kinds of garden crops. The products are sold at wayside stands. From the revenue the camp operating expenses are paid. The boys sleep in tents, have their meals in a special mess-hall and each receives $2 a day. At the end of the season the cash balance remaining after payment of operating expenses is divided among the boys equally. Last season each boy received $128 in addition to his wages.

The boys govern themselves and maintain camp discipline through officers chosen by themselves from their own number. After the season ends, those who wish may enter the Henry Ford Trade School, or get jobs in Ford factories.

Conspiracy To Raise Adv. Rates

Taxpayers To Foot Bill

County Board of Supervisors,
Purchasing Agent,
County of San Diego, California.

Gentlemen:

I am in receipt of a request by the County Purchasing Agent for non-bona fide bids on legal advertising. This fiction of calling for bids is being used to get information relating to bona fide circulation of the various newspapers and the price they would wish to get for legal advertising, that the purchasing agent may suggest to the Board a fair rate.

I am calling your attention to the fact that legal requirements to hold good in court define the territory of circulation and makes it mandatory to insert advertisements in the representative daily or weekly papers in that territory. And as far as the county business is concerned the county need not insert a single advertisement in a daily paper with a higher circulation and a higher rate where insertion in a weekly paper with a lower rate would give the same legal service.

I understand that the Board contemplates establishing some time in the future, perhaps next year, a varied scale of rates, based upon circulation. In that case I shall take the matter to court and protect the Taxpayers' interest by demonstrating that, legally speaking, circulation makes no difference to the recognition by the courts of the fact of proper legal advertisement.

It is your business and the business of the purchasing agent to hold down expenses and follow the law to every extent that it will promote economy. I do not belong to any price fixing association of newspaper publishers who are considering to raise the price to the taxpayers and I shall expose any such attempt and any aid and comfort such conspirators may receive from our public officials.

For these reasons I do not file a sworn statement about the circulation of THE BROOM, but for your information give you the correct figures. We printed an average of 1750 copies for the last six months, of which paid circulation is represented in this county at about 1500 copies. The remainder is divided between out of the county circulation and free or sample copies upon request.

Yours truly, C. LEON de ARYAN.

MUSTN'T SAY 'CHRISTIAN'

To The Editor:

The following advertisement was sent to the **New York Times** from a Tourists' Home to be inserted in its columns and paid for at a rate of 85 cents a line. They refused to print the ad unless the word "Christian" was changed to some other term.

"FOR TOURISTS.
"MIDDLEBURGH — beautiful Schoharia Valley; small farm in village; accomodates 6 to 8; all improvements; Christian community; swimming near-by; $12 weekly."

The **Times** demanded that the word "restricted" be in place of "Christian".

I found several ads in the **Times** with "kosher" and "Jewish cooking" to give Jews needed information: but the **Times** will not give the public any comparable information for Christians. —L. R. Bowdish, Middleburgh, N. Y.

PROTECTION AGAINST CHICANERY

Affirming a lower court decision, the Supreme Court of Georgia recently held the municipal chain store tax of Augusta void on the grounds that it was "unreasonable, arbitrary, discriminatory and confiscatory." The ruling of the court was based on a similar case in which a special chain store tax in the city of Columbus was nullified. Both taxes attempted to exact a levy up to $1,200 per store on every chain system operating in the respective communities. Obviously, as a lower court judge declared, the exorbitant limits of the measures indicate that they were designed to destroy the business of the assessed, rather than raise revenue. He further pointed out that a city council "cannot legalize a business—give license to do business and then under the guise of taxing, destroy the business that they have legalized and licensed." The Supreme Court held an even broader view: "To permit a municipality to levy a confiscatory tax upon a business licensed by the State would be tantamount to a repeal of an act of the general Assembly by a municipal ordinance".

Apparently the activities of petty politicians and short sighted business men have no limits in the struggle to get votes or kill competition. They undermine their own welfare and that of the community with thoughtless actions. Fortunately we have courts that stop such chicanery before its evil effects hit too hard. Otherwise no enterprise could operate in even comparative security.

A LETTER IS BETTER !

To The Editor:

How would a petition from every family in the United States to its Members of Congress work? One like this:

"If you vote to send our boys abroad—we'll vote to keep you at home."

Would that not end the idea of our young men's going to Europe or China?—John M. Baer, Washington, D. C.

DECEIVE! CONFUSE! COLLAPSE! DICTATE!
Exposure of Marxian Sabotage Plot as Prelude to Dictatorship

In order to interpret the moves of the New Deal it is necessary to understand the Red technique.

Karl Mordechai, alias Karl Marx, knew that an old **individualistic** nation could not be conquered by sudden attack. The technique as outlined by Marx in his famous Manifesto and improved by Lenin, Trotsky, Stalin, Blum, Frankfurter and Roosevelt and the Komintern, may be briefly summarized as follows:

1) Deception; 2) Confusion; 3) Collapse; 4) Dictatorship.

The phrase, "dictatorship of the proletariat," is a catch-phrase to obtain power over their dupes.

For example, the Roosevelt **real program** was entirely different from campaign promises. Blum, while promulgating a reform program in France disguised in gentle words, at the same time in a party speech, said: "It is not our aim to reform the bourgeois capitalism." Certainly not! He, like all Reds, knows that their aim is **collapse** as a pre-requisite to the "dictatorship" **over** the proletariat.

A JEW TAUGHT JEWS

The late Herman Emerman in Ohio used to speak to his fellow Jews, tell them America was the best home their people would ever find, that America must be cleansed of a great curse if it was to remain a safe place for their people, that the curse was the money power, that the Jews must help destroy the money power.

Emerman framed and exhibited a great many copies of a short poem by Norma Shield which reads:

Rags make paper;
Paper makes money;
Money makes banks;
Banks make loans;
Loans make poverty;
Poverty makes rags.

Emerman taught how every seven years this cycle completed itself, in expansion and depression of our economic life, which has come to us about 25 times in American history.

At the conclusion of an audience with Pres. Roosevelt at Warm Springs, Go., in Dec. 1932. Gen. Jacob S. Coxey presented him with an Emerman framed copy of his poem. The President read it aloud to his secretary, McIntre, and the conference closed with a great laugh.

The president failed to learn how the Federal Reserve Banking System acts in cycles from rags to rags. Instead he has used all his great power in favor of the system that creates rags and poverty, where abundance could be released and man set free.—Money, N. Y.

I SEE

I see them die
They don't know why.
Far, far from all their friends and wives
They must expire their sweet young lives.

I see them bleed
For hate and greed.
The lives they took so many times
Send them to hell in Flanders, Reims.

O foolish world
When will you see
That as you sowest you shall reap,
Who disobeys is sent to sleep.

And following the "dough",
Our hearts are in London,

PAL OF THE UNKNOWN SOLDIER
Wakes Up In 1940

Pal of the Unknown Soldier,
Resting for a score and more of years,
Under one of the stiff crosses
That dot a foreign soil . . .
Roused by sudden, sickening scream
Of bomb and shell,
Sat up and looked about.
Surveyed the world . . .

"And so . . . this is Democracy.
The world made safe.
Paid for with my blood
And that of my Buddies . . . .

"This is the world they know.
The bride I left when duty called.
My son . . . now a man . . .
Just the age to don a uniform
And go out, in turn,
To save Democracy.
This— this is their heritage!"

A tired look came into his eyes.
He sighed . . . then cursed.

Another shell screamed past,
Disturbing the Sanctuary
Of the Pal of the Unknown Soldier . . .

—Nellie Whitman Harris.

NOTICE OF AGREEMENT FOR OPTION TO PURCHASE TAX DEEDED LANDS
Pursuant To Section 3897d of the Political Code
Office of the Tax Collector of the County of San Diego, State of California

Whereas, the City of San Diego, municipal corporation in the County of San Diego, State of California, did on the 30th day of April, 1940, enter into an agreement, pursuant to Section 3897d of the Political Code, with the Board of Supervisors of the County of San Diego, State of California, subject to the approval of the State Controller, for an option expiring April 30th, 1943, to purchase the following described real property, situate, lying and being within the boundaries of the City of San Diego, in the County of San Diego, State of California.

NW¼ of Lot 39, of Horton's Purchase according to Map No. 283 of a portion of the Ex-Mission Lands of San Diego, commonly known as Horton's Purchase, filed March 9, 1878, in the office of the County Recorder of San Diego County, California.

The above described property was sold to the State of California June 30, 1928, for the delinquent taxes of 1927, and was duly assessed for taxation for the years and to the persons respectively, as follows:

Years 1927, 1929 and 1930, Assessed to John M. Cavens Est.
Years 1931 to 1933, Inc., Willemina & John S. Cavins.

Said property was deeded on the 1st day of September, 1933, for non-payment of taxes to the State of California, being Deed No. 4602, portions of which said delinquent taxes and or assessments were levied by and payable to the City of San Diego, said County of San Diego at said time and ever since being the tax collecting agency for taxes levied by said City; and

WHEREAS, the State Controller duly approved said agreement on the 7th day of May, 1940; and

WHEREAS, said agreement is now on file in the office of said Board of Supervisors.

NOW, THEREFORE, notice is hereby given that unless the above described property is redeemed prior to 9:30 o'clock, A. Pacifist's Dilemma

By Herbert S. Mace

(Concluded)

ARTESIA, Calif.,— Quote:— "Is not the very notion that the purposes of the United States Government can run counter to the purposes of God ridiculous? Is not the serious consideration of such a possibility in itself sacrilege?"

Governments are human institutions; and as such can and sometimes do run counter to the will of God. To hold that any one nation cannot run counter to the will God—in common honesty and plain logic—would be to maintain that no government could run counter to the will of God. Such a theory would make everything done in the name of government, God's will; and such a conclusion would make of God a vile beast, unworthy of any love, respect, or consideration.

Can we honestly maintain that we did not err in permitting human slavery; in legalizing the liquor traffic, and at one time, prostitution? Is it God's will that children starve while food is destroyed by government orders?

The militarist, apparently, believes that anything the military machine does or wants is the work of his government, and that all such things are right.

The pacifist accepts no such theory. The pacifist knows, as all who read may know, that the military machine has often overrun the government and betrayed the people. This is how most dictators finally come into full power. This is the case with Japan in China, Germany in Poland, Russia in Finland, the United States army and navy in China at this present time — March, 1940. The recent Spanish Civil war, a war started and waged by the military machine; as have nearly every rebellion and civil war in Mexico, the Central and South American countries been. The American people in the election of Woodrow Wilson gave this government a direct, clearcut command to stay out of the World War.

The pacifist knows that the military element often misleads the people. Falsehoods are as essential in bringing about and winning a modern war as guns and bullets are .

"Render unto Caesar the things that are Caesar's", is a favorite of the militarists. Completed, "and unto God the things that are God's", it becomes one of the strongest arguments against preparedness and war; for it is God's to be obeyed by the individual and the nation—and one of God's laws is, "Thou shalt not kill".

The pacifist is opposed to preparedness and war for many other reasons than the mere keeping of the law, "Thou shalt not kill". He is opposed to these sins because the Bible teaches that all wars and all preparedness is a sin against both God and men; because war is useless; anti-social; destructive; un-sound from an economic stand-point; history proves it to be a failure—it gains no good and always leaves destructive results and after re-actions; it is contrary to the Golden Rule.

The pacifist is opposed to preparedness because it is a form of un-declared war; the first step of all wars; the direct cause of many wars; and usually an indirect cause in every war.

The pacifist looks upon preparedness as a violation of God's laws; as contrary to the spirit of human brotherhood; a promoter of fears and passions; lusts and crimes; as national and race suicide.

Militarism, wherever found, is essentially by nature, narrow, selfish and nationalistic. To live, it must be a constant threat to all other nations. It is founded on fears; the passing of judgements upon others; ignorance; superstitions; intolerance; lusts; greed; and the entire list of vicious passions. It is a vicious, ever-widening circle of destructive elements that will have to be destroyed, or plunge the world into more and more preparedness, more and more wars, and chaos.

The world's only hope is that the spirit of pacifism; sane, logical, Christian in its fundamental principles, can check and break the vicious circle of preparedness and wars before the race is plunged into chaos.

We do not need to fear a nation endowed with the spirit of pacifism; but militarism can not be trusted in its purposes and motives; nor left alone with its fears and passions.

While militarism is narrow, selfish, nationalistic; pacifism is inter-national, overleaping all boundaries. It reaches out the hand of love and friendship, of faith in God and one's fellowmen, and says, "If there are differences, let us settle these with love and reason".

The militarist in his fears and mis-understanding of fundamentals, believes the pacifist to be tossed between the horns of a dilemma. But the pacifist has never seen the beast, or heard its roarings; for the pacifist's mind is at ease; his heart is calm because he trusts in God and has faith in and love for his fellowmen.

Must We Have War?

Radio Talk by

David and C. Leon de Aryan

LUNDEEN ON "PREPAREDNESS"

WASHINGTON,—Reminding his fellow legislators that they had appropriated more than $3-billion for arms in 24 hours, Senator Lundeen asked them if it were not possible that that "seventh column" might still be operating. "Foreign influence may once again persuade the gullible pro-Europeans to scrap our ships—scuttle and sink them once again into second place, now that we have again reached first place among the navies of the world. How many columns are we going to have in this country? Is there some sort of a column somewhere wasting our defense money?"

The Minnesota Senator said that in the last 50 years this nation has spent nearly $40-billion for preparedness " including our recent hysteria". "What became of this money?" he asked. Senator Lundeen introduced figures to show that, under the Washington treaty of 1923, ratified by the Senate of that day, this nation sank 31 ships, totaling 767,880 tons, at a loss of $277,-695,994.34.

"The American taxpayer must never forget that he paid for the world's greatest navy, that these ships were scrapped and sunk," Senator Lundeen said: "We have never been able to recover that lost and scuttled tonnage."

—Social Justice.

Editor's Note:— The Metal Industry got its money, dear Senator. They want more. Oi, Oi, Oi !

ROOSEVELT WANTS WAR

WASHINGTON,—Rep. Wodrouff (R-Mich), criticized the tone of President Roosevelt's speech at Charlottesville, Va., recently, saying the executive's expressions were "intemperate and unwise" and might "take us into the war on the side of the Allies".

Rep. Hoffman (R-Mich) referring to the President's description of Italy's entry into the war as a stab in the back, asked:

"Who is it that has stabbed American industry, upon which the nation must depend in the next few years, in the back?"

THIS ROSE I HAVE

Many the rose I have seen,
But none, these are to you.
Each have come and gone their way
My vase has contained but few.
You, in my garden of Life must live.
None have conquered my soul-dead eye;
Nor filled the empty void with stars;
And made old wrongs within me die;
None but you, you sacred-petaled nymph;
You with your magic-lightening spell have met,
And pierced my eyes with thorns of Love
Where higher now than mind you shall be kept.

—J. Stanley Henninger.

THE YOUNGSTER KNOWS

The average youngster wonders why it is that if nature's so wonderful she makes things like codliver oil and spinach more healthful than strawberries.

The youngster is right. Nature is wonderful and **did not make** codliver oil and spinach more healthful than strawberries. Cod liver oil clogs the system because it is a **dead animal** product and unfit for the human system. Cod liver oil is one of the substances that injures the fine eliminating apparatus in the child and lays the basis for **Arthritis** in later years.

Spinach is not rich in iron and it robs the human body of calcium. Its mistaken value became publicized through a **typographical error** in the table of comparable contents published by a Viennese doctor. In fact spinach contains less iron than lettuce.

Ripe strawberries taken **without sugar** and without cream, (honey permissible) exceeds in food value and health value any spinach preparation while cod liver oil is a **drug** to the system.

H. L. Mencken

The Pungent, powerful, patriotic pen of H. L. Mencken recently contributed an article to the **Baltimore Sun** entitled "Heating Up the Heroes".

Of the present war hysteria sweeping this country, he said:

"What we face is an almost classical example, downright beautiful in its proportions, of demagogy in action. First raise up a bugaboo to terrify the boobs, and then proceed to put it down with loud shrieks and objurgations, at the same time hustling the boobs into a prepared pen . . . that, precisely, is what the Hon. Mr. Roosevelt and his associated fire-alarms are doing today . . . "

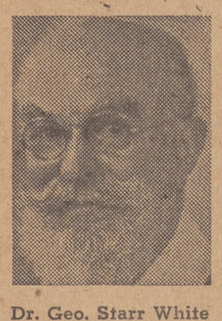
HEALTH-GERMS

By George Starr White, M. D.

CAMOMILE

LOS ANGELES,—Camomile or chamolmile is a term given any of the strong-scented flowers of the aster family with white rays and yellow discs. The camomile flowers used as a remedy are known as German Camomile flowers.



Dr. Geo. Starr White

Two teaspoonfuls of the dried flowers as they come from the drug-store package, put into a cup of hot water and allowed to steep for about five minutes make the regular "camomile-flower tea". This tea has a soothing effect upon a person with a fever, or one that is nervous from pelvic, or other pains of any kind.

For sore eyelids, styes, inflamed eyes, boils and bruises, a poultice of German Camomile Flowers is excellent. Make a little bag from muslin or cheese-cloth (two or more thicknesses) to cover the part to be treated; fill loosely with the dry flowers, sew up and place in a pan of hot water. When well soaked with the water, place as hot as possible on the painful spot, or over the closed eyes. While one bag is in use, have another bag heating. When the first bag becomes cool, replace with the hot one. This treatment may be continued for an hour at a time, many times a day, with half-hour intervals between treatments, until the condition is relieved.

For children, Camomile Tea with a little honey in it has a soothing effect upon the stomach and bowels.

THE MEDICAL PROTECTION

Most people have the idea that they and their health are well protected against and fraud and quackery. There are laws that make it almost impossible for any one who is not "adequately" qualified to treat people's ailments; and these laws—so the majority of the people think—insure them the best of care in their illness. And the most dependable cure, but is it really so? Let us look into this.

First we see that there are quite a number of diseases whose origin and primary causes are not known to the medical profession. Just to mention a few: small pox, cancer, ulcers of the stomach, arthritis, infantile paralysis, mental disorders, etc. But in spite of this fact every medical doctor is ready to offer his help and services to you—even if he does not know what is wrong with you. Strange, isn't it? It's just like calling a man to fix a machine when this man does not know what is wrong with it. The result can only be a failure. So if a doctor tries to cure without knowing what is wrong with you, he is only experimenting on you and in 90% of the cases doing more harm than good. That is why Christian Scientists sometimes help people more than any doctors—simply because they don't do anything. And if you leave a patient entirely alone, the chances are that Nature accomplishes the cure—although a Christian Science practitioner gets the credit for it. So it is clear that so-called medical doctors are not after all so competent and reliable helpers in the matters of curing our ailments as they would have us believe, by far not.

When it comes to other doctors, the situation is about the same. Some of them tell us our bones are out of place, and if this is corrected, we will be all right. But in too many cases the results of so-called oesteopathic treatments are not as good as expected, and so people turn to some other doctor with their ailments. The next doctor may tell you that your spine is out of commission and needs a good "adjustment" and then you will be allright. But you won't be all right, and so you walk into a health studio where you get rubbed, baked, bathed, stretched, exercised and streamlined. You may feel somewhat stimulated and pepped up—but in most cases your troubles come back— and then you are ready to give up until someone tells you to try **Nature Cure.** What, you say, Nature Cure? Is there any such thing as Nature Cure—and what can Nature do for me? And where can you get a doctor of Nature Cure —if there are any? The sad part of it is that it is sometimes hard to find a "doctor" of Nature Cure for several reasons.

In the first place Nature Cure is so simple that any one can understand it—and become his own doctor! This means less money and income for the Naturopathic doctor—in most cases it means his starvation. That's one reason why there are so few doctors of Nature Cure or Naturopaths. Another reason is that a person can have all the knowledge in Nature Cure without even being a "doctor" in the sense we use this title today. There have been many noted healers in Nature Cure, real pioneers in the art of drugless healing, who without being doctors have healed and cured thousands of people whom other recognized "doctors" could not cure. So what does this fact show? It only shows that a doctor's title, diploma and license do not guarantee you the health you are looking for. There are two explanations to this seemingly strange situation. The first reason is that all the knowledge in the art of healing is not to be found in our schools of standardized medicine. So that our licensed doctors are not infallible in their methods of treating diseases. The other reason is this. Are there any guarantees for a patient who is seeking health from a doctor that this patient is really getting the best of treatment from him? Suppose it would be against the interests of this doctor to cure a patient. Suppose he knew what to do to cure him but would not do it for financial reasons because he is only human. In this age of financial struggle for existence it is best to treat a patient as long as possible instead of curing him and losing the income from him. And would you be shocked to hear that there are cases on record where the moral standards of a physician are questionable. So what? Are you so sure about the protection the laws give you against any exploitation on the part of doctors. Think is over.

But this is not all. Do the laws that require standardization of the medical profession hinder the progress of curing people's ailments and promoting good health, and do these laws really advance the public health? Suppose there were persons who have a keener insight of the Truth and more moral courage to proclaim the Truth when they see it. What can they do to help humanity in its struggle for better health? Do you think that nothing really worth while can come from the ranks outside of the medical fraternity? If you study the past with an open mind, you'll find that many scientific truths and discoveries now generally accepted in medicine have come from men who had no medical training. So trying to tell us that all this protection against "outsiders" and quacks by laws and enforcements is for our best interest is erroneous. There must be liberty of opinion and action in this field of life as in any other field. Let those who have knowledge of how to cure disease— and can give rational proof and explanation of their methods—give their services to people with the same rights as have the graduates of orthodox schools of medicine. Let this liberty to proclaim the Truth be a new stimulus for progress and happiness for all. Without this liberty we will be at the mercy of those whose interests are constantly fighting against our interests in health and happiness.

In our next article we will discuss the practical side of this question of reforming the present day commercialized medicine so that medical men would serve the public and the sick instead of making the public serve them and their personal financial interests.

Yours for the Truth,
KATHERINE LARSON

God Helps Those Who Help Themselves !

Editor, The Broom:

Is there no law nor order in San Diego that a smart Alex can herd a bunch of indigents whom the taxpayers have been feeding for years and take over one of our Government buildings and put on a sit-down strike and defy anyone to put them out even the Police. We have given them everything—clothes, shoes, food, medicine, nurses, doctors and By Gum! teeth. We have even taken to oleomargerine to give them butter and because we cut down a little on this extravagance so we could buy a pair of shoes for ourselves, they want to show us we can go barefoot for all they care, as the members of one of our clubs did actually do at one of their meetings not long ago and handed them over to them by a generous sponsor. I have seen men and women on relief and pensions get as drunk as bats when their money comes in and how they can afford liquor, tobacco and cars when they are on relief, beats me but they do and yell for more. People on relief should be sterilized and when I say that don't think **I** created the idea—It was one of their own number that said to me with the most sickening leer I have ever seen on a human face "You know—more babies more money" when speaking of his new baby coming.

What is going to happen in this golden land of plenty and when I say that I mean it, when the people are too shiftless to garner it. There is work for men and women if they will take the wages the people can afford to give them and acres and acres of land to own themselves and cultivate but a few smart Alexs have them herded like cattle—the C. I. O., A. F. L., alliance, Nazis, Communists, Fifth Column, and they follow on in strikes and mad frenzies. Every day I read articles such as "Relief Rolls up to 10,000 in 1939 despite business improvement—Again, a Member of the State Relief administration charges that S. R. A. Social Service procedure is responsible for the waste of hundreds of thousands of dollars a year". Can you beat it, and to crown all I read that Science claims that the sun is not setting on civilization.

This is the reason the great cry has gone forth for a new President but I must say this, that if President Roosevelt had had the opportunity of studying the working people as I had in my long grope to lay my weary head he would never have allowed the liberty that, **they think,** they now possess. He thought if he gave them a lift they would start out for themselves, instead they sat down on his noble generosity and they are still sitting with a low-down "gimme, gimme" yet.

RADIO TALK over KGB (dial 1330)

Things are happening so fast nowdays, abroad and at home, with the war across the waters in China, Africa and Europe as well the war and preparadness hysteria in our national capital, together with the Republican convention in Philadelphia, that one cannot tell from one day to the next what other changes are coming upon us. My older boy, David, who is 15 years old, has been listening daily to the various radio commentators and forums of the air and is discussing the changes & issues as they come up. He has asked me many questions which are very much to the point so that I decided to invite him to take part in tonight's program and bring out his questions in public. Go ahead, David.

DAVID—Before I ask you questions, dad, I wish to tell our audience about the way you produce your radio talks, as well as edit THE BROOM. Dad never tells his family what he is going to say over the radio and we never know what he is writing in his paper till we read it in print. Some people might imagine that because he is my dad, I have a chance to get advance information, but I am as much surprised about the things I read in the BROOM and the things he says in his broadcasts, as any other listener or reader, respectively. So I was very much surprised when he told us last Thursday night that he is one of the fellows who know it all, or in plain English: is omniscient.

DAD—What are you talking about?

DAVID—I am talking about last Thursday's broadcast and to fortify your memory, here is what you said. You were talking about the ancient Persians and their temples in the Himalayan mountains. You said that Plato and Jesus Christ were students in those temples. Here are your exact words: (quote) " . . . they explored the spiritual regions, reaching to the very THOUGHT of God. Plato was one of their students and so was Jesus Christ. Both of them have presented to the western world the identic pattern of Divine Ideas, of Divine Love, of Divine Providence, which foresaw everything that humanity was to need and made provision for it. This gave me the key to the Principle that harmonizes material existence with spiritual science and makes religion a scientific masterpiece of Intelligence and systematic success in application." (unquote) Now, Dad, if you have the key to this master science, does that not make you omniscient? Are you not exagerating a little in your claims?

DAD—Of course, the principle of science is that Divine Intelligence rules supreme in the universe and knows all that is going on, because God is everywhere and all creation is the product of the Divine Creative Thought. And that is what we must never forget. If we would only remember every moment the presence of God we would realize that we cannot cheat and get away with it.

DAVID—But, dad, if you have the same key, are you not also claiming to know as much as God does? You are no infallible God to your family, you know that, don't you?

DAD—You boys can certainly bring up the most impossible questions. Would you call me conceited if I told you that I have found the principle by which I can tell you any day in the year exactly to the second, where you will find each star and what the phase of the moon would be and when we will have another eclipse? Would you laugh at me and crack jokes about my being omniscient?

DAVID—Of course, astronomy tells us all about that.

DAD—Then the astronomer is omniscient in this particular phase of his work, is he not?

DAVID—I never thought about it that way, but of course he knows his stuff if he is a real astronomer.

DAD— Allright; and if I told you that I discovered the principle by which I can produce a calculating machine and just punch a few keys and press a button, then electricity will turn the machine till it stops and gives me the correct and infallible answer, would that not make me omniscient in this line of mathematical calculations?

DAVID—I begin to see what you are driving at. But in both cases the astronomer and the mathematicians are using an exact science to figure things out. But you know, daddy, that exact science does not apply to human nature. You can never tell what men will do.

DAD—And that is why you think me conceited and ridicule my socalled omniscience? But there is where you are mistaken. Spiritual science and its application to daily life is just as exact as are the mathematical and other socalled exact sciences. The difference lies merely in human unfoldment. Some people have evolved highly enough to understand it, others have not. Same as with mathematics. There are plenty of people to whom calculus & astronomical figures are beyond their ken. What difference does that make to the mathematicians and astronomers? There was a time when they had to swear off, you remember when the Pope made them swear that the earth was not turning around, think of Gallileo. But, just the same the principle is very simple and easy to apply once you catch on to it.

DAVID—What is that principle?

DAD—It is God and the nature of God. Today when the world is taking recourse to brute force, to murder, war and preparedness for war, it is high time that we apply the divine principle.

DAVID—I agree with you that we ought to think more of God and as President Roosevelt said, the world needs a strong revival of religion to save civilization. What have you to offer?

DAD—The principle of Intelligence. Once you realize that Intelligence rules supreme and not brute force, you will no longer look to brute force for salvation, security, protection or even preparedness.

DAVID—Then you do not agree with the preparedness program which our President and the Congress is working out?

DAD—I disagree with them completely. This is an election year and in the United States the two party system is supposed to produce an opposition to the party in power. But there is no difference between the two parties. Both are working toward the same end using the same means so that the people have no real criterion of their government.

That is why THE BROOM alone in San Diego opposes preparedness. The reason is that force begets force and never protects. You cannot cure an evil by the same evil. That is where the Christian religion comes in and Jesus Christ teaches us to return good for evil. I'll quote to you from MATTHEW, fifth chapter, verse 38:" Ye have heard that it was said, An eye for an eye and a tooth for a tooth: but I say unto you, Resist not him that is evil . . . " And in verse 43: "Ye have heard that it was said, Thou shalt love thy neighbor and hate thine enemy: but I say unto you, Love your enemies, and pray for them that persecute you".

You see, David, the choice before the people of the U. S. is to chose between the wisdom of Jesus Christ and the present preparedness hysteria. Remember when we take an oath to protect the constitution and defend our country, the very taking of the oath means: So help me God! How can any intelligent person expect God to help us to go contrary to Divine injunctions in attempting to protect ourselves! ?

DAVID—You got me stumped on that one, dad. Would you dare come out and tell us not to prepare against a Hitler invasion of America?

DAD—You see, David, if instead of laughing at me when I am saying that both Plato and Jesus have revealed to the world a principle that is infallible and brings results when applied; you first would take the trouble to study and try out that principle, you would soon find out whether it is true or not. It takes no special omniscience to realize that if we hate a people and do all we can to hurt their trade by boycotts and shipping ammunition to kill them, we do not make friends. That all the guns in the world are not going to make them love us, but that if we treat them fairly, we bring out their better human nature and they will reciprocate in kind. In other words, we must have the same courage to take a chance at making friends as we are taking a chance at making enemies and killing them off in war. When we war on them we kill them and they kill us; when we take a chance on treating them fairly, the worst would be that they continue to distrust us and keep on arming.

DAVID—But dad, if they keep on arming and Hitler comes here, what would we do?

DAD—That is where faith in God comes in. If we were to treat the Germans fairly, there would be no reason for the German people to support a war dictator. He has only power to sway the people as long as there are armed enemies who threaten them.

DAVID—That's what you say. But do the Germans know it? You know the story about the dog who is not supposed to bite because he is barking, but does the dog know it?

DAD—All you have to do is study history. Even the events of the last 25 years and you would find that Jesus Christ is right and all the militarists are wrong. Germany was disarmed after Versailles. Had the Allies treated the Germans fairly instead of blockading them and starving them there would never have been a Hitler. And there would haven been no war against France had our president not encouraged the French government to hope that we would help them, as Senator Neye so correctly said it the other night over the radio. And there will never be peace and security as long as people place their trust in armed force instead of fair dealings. It is impossible. I don't have to be omniscient to tell you that. But spiritual science will tell you that like begets like and Jesus Christ told us that he who draws the sword shall perish by it. So how can we get security by drawing the sword? In a way you are right, I am omniscient when I say that we must apply spiritual science to everyday problems to get the right solution in human relationship. I can always foresee and correctly foretell what the results will be in both cases and I am infallibly right, just as the astronomer and mathematician is in his respective line.

DAVID—But what do you expect the nation to do, not prepare for war at all?

DAD—Had we been prepared we would be in the war. War is made for the profit of unscrupulous people who use the gullible suckers of the world as their cats paws. No war ever happens. It takes a lot of work to get a war going and no nation profits in the long run. If those war profiteers would only realize that they cannot fool God and must in the end account for their crimes, there would be no wars in the first place. All we will get out of compulsory training is that they will ruin the business of those who must join the army and a lot of people will be forcibly vaccinated.

DAVID—You must be right, because you are repeating the words of Jesus Christ and of the other great Thinkers of the world, but Daddy, the President and the Congress don't think that way and they are going to work to put their preparedness program over.

DAD—This is the opportunity for the Republican party and the Republican candidate for president to come out on a platform against war and instead of spending the money for ammunition they ought to prepare to feed Europe this winter. They are all going to starve over there, Germany as well as the Allies. If this country would use that money to feed them all, you would see that Jesus Christ is right that this is the way to make friends and put an end to hate and distrust.

Next Thursday's program will present the subject: "Must we have war?" with David again asking questions. You will be interested to hear the answers. War is unnecessary. Tune in again on Thursday and tell your friends about it. Good night.

enacted by 1935 Legislature. Experts say original intent of this law has been so changed by amendments in 1937 and 1939, and the Department's rulings and interpretations, that it will be found to be detrimental to both producing dairymen and consumers.

Originally intended to assure to farmers who supply markets in various Southern California cities, a stable price to enable them to continue to produce an adequate and steady milk supply in the public interest, it now becomes apparent that the 1937 amendments—which were opposed by Women of the Pacific—have twisted the law into a price-fixing statute which virtually destroys competition and tends to set up a monopoly in this essential food.

F. D. R.'S SARDONIC JOKE

By GEO. CARTWRIGHT

Modesto, Calif.,—In the light of current events, a prominent writer says humor is added to our national situation by FDR's speech, Buenos Aires, 12-1-'38, when he declared rearmament as a means of restoring prosperity can have but two results, nations adopting it would either collapse like a house of cards or be inevitably led into war.

The Broom of San Diego asks, "Why should congress in 1938 authorize another billion dollars for battleships when the navy is not prepared to lay keels of ships authorized by outlay of $4 billion of the Vinson-Trammel Act and the subsequent $2 billion appropriations?"

Of course, the President's problem is what to do with our home market—Labor's buying power—destroyed by "tax relieved" land monopoly, over ten million unemployed, and the river of Land Rent—$250,00 per acre per year in N. Y., $100,000 an acre in San Francisco, and similar conditions in other cities, the country as a whole living on European war supplies business for several years past.

The $6billions plus more billions now will provide: 1st—New Home defence. 2nd—Make more munitions workers' jobs. 3rd—Provide war bond investments for the Land Rent billions annually flowing into the pockets of our predatory. Each of these results adds up to make America safe for monopoly—for a little while only.

Chinese Golden Rule

"As you do unto others it will be done unto you," says China's philosophy. In 1918 a railway coach was used by the Allies to dictate surrender terms to defeated Germany. France made a national monument of this coach. Recently it was used by Germany to dictate surrender terms to France. Limited space prevents mention of several individual cases we know where this principle was effective in one life time.
